## OPTION 1:
Add the Tiltify Panel Extension
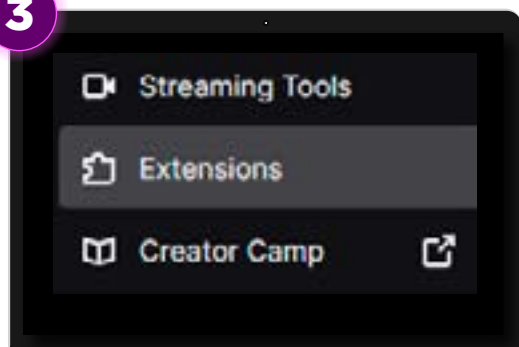

1

Sign into Twitch and select your Profile picture in upper-right of webpage
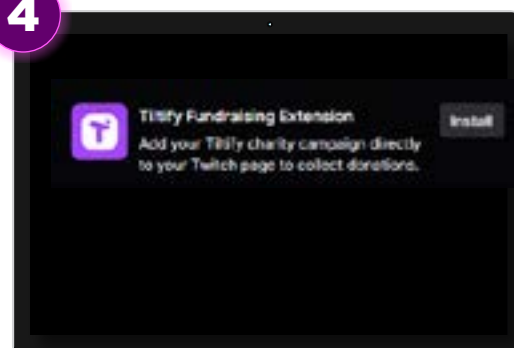

2

Select Creator Dashboard

3

Navigate to Extensions tab on left-hand side

4

Search for "Tiltify" and select "Tiltify Fundraising Extension"

5 Select Configure, sign into Tiltify and select your active Stream to Serve campaign you want to connect and SAVE.

Please note, you will need to have PUBLISHED your campaign for it to appear in the list of active campaigns. You will also have to configure this extension to update campaign connection each time you begin a NEW fundraising campaign.

6 Final step is activating the panel, select which panel you want the extension to display, the top 2 panel options will put the donation panel at the top of your profile "About" section.
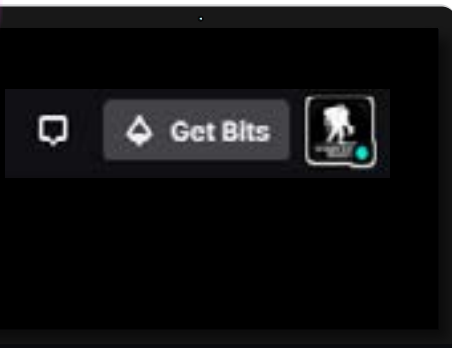

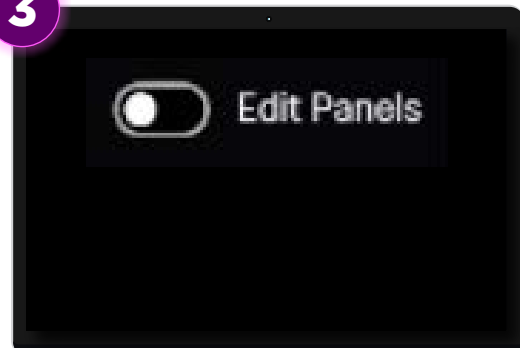

OPTION 2:
Panel with linked "Donate" Graphic

Strongly recommend using the Tiltify extension panel as it will enable donations to be collected to Tiltify without your viewers ever having to leave your broadcast! If you prefer to avoid using the extension, proceed with the next steps.
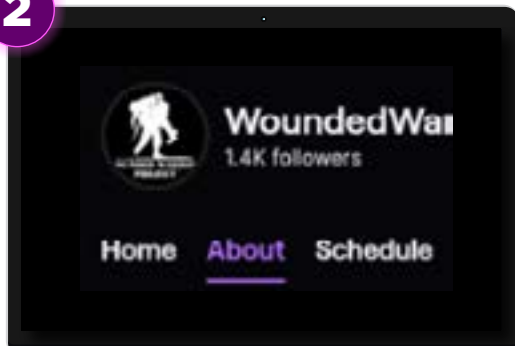

1

Sign into Twitch and select your Profile picture in upper-right of webpage.

3

Select Edit Panels and create a new panel by clicking the + sign

2

Select Channel and navigate to your "About" section

4 Upload a "Donate" graphic and add your Tiltify Stream to Serve campaign link to "Image Links To:" section. **Be sure to let your viewers know these donations are different from tips to you for your content.**

5 Add a brief description about your Stream to Serve campaign, why you're raising funds, how your community can support and remind them of your goal.

6 Save the panel!

ADDING YOUR TILTIFY THERMOMETER OVERLAY

1

Login to https://tiltify.com/

2

Click on your profile picture in upper-right and navigate to Dashboard

3

Select your active Stream to Serve campaign from the list and then navigate to "Overlays"

4 Copy Overlay URL for your preferred Overlay look, preview will allow you to see what it will look like displayed on your broadcast

5 Paste the Overlay URL as a "Browser Source" into your streaming software (SLOBS, OBS, etc.)
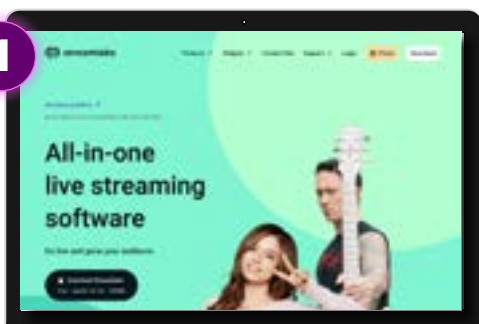

Note: If the thermometer is surrounded by a large boundary box, restricting your ability to resize and relocate to best fit your stream, hold the ALT-key and drag the boundary box edges inward to get rid of the blank space around thermometer and resize accordingly.
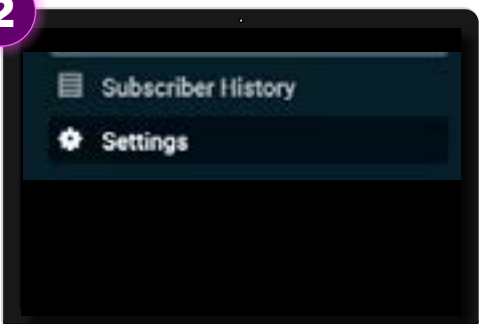

ADDING DONATION ALERTS VIA STREAMLABS

(Not necessary if using alerts feature within Tiltify Overlay)

1

Login to Streamlabs.com

2

Navigate to Account Settings

3

Select the Integrations Tab

4 Find Tiltify and "Link" your account

If you use StreamElements, please visit here to learn more about how to integrate alerts.

**5** Select your active Stream to Serve campaign

Please note, you will need to have PUBLISHED your campaign for it to appear in the list of active campaigns. You will also have to configure this integration to update campaign connection each time you begin a NEW fundraising campaign.

6

Navigate to Alert Box

7

Select Tiltify Donations and edit the alert settings for your stream.
The settings for this is what will pop-up on stream when you receive a donation to your fundraiser.

8 Don't forget to Save Settings!

ADDING CHAT COMMANDS TO YOUR STREAM

Chat commands are a great way to easily remind your community about your fundraiser for Wounded Warrior Project. These settings are managed with the Bot you use for your stream, whether Streamlabs, Nightbot, Stream Elements, etc.
